### Washable Ruching.

Washable ruching may be made at home, and is very likely to wear better than the kind sold in the stores. Take two widths of footing, of the sort used formerly for edging handkerchiefs. Baste the opposite edges together, leavog a quarter inch difference at the op, and gather into tiny plaits, on a arrow band. This may be done by hand, or more eally on a machine ruf-fle. After washing, starch slightly, iron and pinch up into little plaits. It will be much prettier, however, if one owns and uses a regular fluting machine. This is not inordinately expensive and comes into constant use for lace edges, cuffies down the front of shirt waists, etc., and it certainly gives one a trimmer, more tailor made appearance.

Those Batiste Waists. The nicest kind of white waists, ready made, as of finest white batiste,

with a trimming of effect of English embroidery. There is not only embroid-cry, but great quantifies of tucks in the smallest widths. You can't make a mistake in choosing a butiste waist.

Vinegar Improves Skin. And now they say Mr. Morgan was in strong soapy water while washing highflyer before he bought an airhip. In the altitudinous but not in the aeroplane sense.

If one is obliged to have the hands in strong soapy water while washing dishes or doing other household duties, a little vinegar rubbed upon them after they have been taken from the water will greatly improve them and the beauty to be a strong to be ilso tend to keep the skin white.

Oil in Silver Polish.

In polishing silver that has been laid away and badly tarnished, it is and away and oadly tarmisted, it is a good plan to dip a portion of a soft, bid cloth in sweet oil, or soft lard, then n whiting, and rub the articles well antil the black has disappeared. Then linish with whiting.

To Keep Knives Rust Free. Steel knives that are not in general use may be kept from rusting if they are dipped into a strong solution of soda (one part water to four parts of sodo). Then wire the knives dry, roll them carefully in framel and put them away in a dry place.

How to Sponge Leather.

Use Plain Flower Pots. Do not buy over-ornamented pots for your plants; they should serve as folls rather than attract too much in them-

To Polish Japanned Trays. Clean japanned trys by rubbing them over with a little olive oil, and then polishing it off with a soft cloth.

As to Boiling Fish. When boiling fish, never have the water quite at the boiling point before butting in the fish. After putting in the water quite at the boiling point before putting in the fish. After putting in the fish let the water come quickly to the boiling point. Then reduce the heat at styles have been seen. the water will only simmer till the fish is done.

# Furnace Pipe Dampers. It is really an economy to have the furnace pipes provided with dampers. Then the hot air may be better regulated and so not wasted. In summer, because of the dampers, the air of the cellur does not reach the upper part of the house.

Lace Handkerchiefs on Hat. If one has a lace handkerchief tucked away in the bureau drawer, there will be opportunity to make use of it in

concocling the dressy spring hat. As part of a garniture or to be worked into the crown it will not come amias.

CONCERNING WOMEN.

Mrs. B. L. Wilson of Nashville, Tenn., is rated the champion cake baker. She can sell all the cakes she makes and was recently called upon to bake 200 little cakes for a Dutch luncheon after a society musicale.

Mrs. Gabrielle S. Mulliner is chair woman of the legislative committee of the state federation of women's clubs. She recently caused a flutter in the New York equal suffrage league by the announcement that there were twenty women of wealth and position in New York who had signified their intentions of becoming members of the

Seven Chinese women were graduated from the E. A. Hackett medical college for women at Canton, China, in January. Among those who made addresses at the exercises was Dr. Amos P. Wilder, the American vice-consulgeneral at Canton.

The bill passed in the Belgian par-liament giving women the right to vote for the members of the counsells des prudhommes also gives them the right to serve on these councils. It even requires that a certain proportion of the councillors shall be women. The women of Belgium declare that this is only an entering wedge toward on-taining the franchise.

#### FOR THE BATH.

One athletic young woman indulges requently in what she calls her home-made Turkish bath." It is a fact, as she says, that one cannot al ways cleanse the skin thoroughly with only soap and water and a comparatively smooth cloth. A cold-cream batl thely smooth cloth. A cold-cream bath on the face will prove that. Therefore she takes a small scrub brush, of the sort sometimes sold in drug stores for nall brushes, and, first wetting the body with a sponge and hot water, scrubs the whole surface of the skin with the brush and a thick some lather the brush and a thick some lather than the brush and the brush are the brush as t with the brush and a thick soap lather. This goes down into the pores and cleanses them, carries off more old skin ing and invigorating.

### WEDDING LISTS.

A sensible plan that some Easter brides-elect are adopting this year is that of a wedding list. This is made out like the Christmas list of things needed, which has proved such a boon to the would-be gift givers. Necessaries of all kinds are written in catalogue form so that each well-wisher can sult his or her privy purse. The bride also states the pattern of the silver, whether bureau or table, which she is collecting, in order to have it uniform, and just what pieces

have it uniform, and just what pieces are wanting to the set.

An aunt or some intimate friend usually takes charge of the list to avoid embarrassment to the bride, and as each person decides on a gift this is struck off the catalogue.

Duplicates and gifts which would prove useless are thus avoided.

Some brides who prefer the greater simplicity of a wedding without presents and the freedom from future ob-

ents and the freedom from future ob-ligations they entail now have a little request to the effect that "Friends are asked kindly to refrain from sending wedding gifts" engraved in one cor-ner of the invitations.

GIRL'S DRESS, WITH GUIMPE. Paris Pattern No. 2868 - All Seams | mar25d

Green and white sprigged muslin has been used for the development of this dainty and aimple little frock, which may be developed in challis, or in any of the washable materials. The full waist portion, which is jumper in effect, hiouses slightly at the center-front, and the full gathered skirt, which is attached to the waist under a narrow belt of the material, is finished with a wide hem. The frock fastens at the center-front with hooks and eyes, simulated closings being made by pearl buttons and loops of cotton braid. The guimpe is of fine white batists, the upper part being made by allower embroidery; the lower edge of the sleeves being trimmed with insertions and a narrow edging.

The pattern is in four sizes—6 to 12 years. For a girl of 10 years the dress requires 3 yards of material 27 inches wide, 34 yards 38 inches wide in the sumper needs a yards 15 inches wide. The guinne needs a yards 15 inches wide, 14 yards 36 inches wide, 28 jards 67 inches wide, 19 yards 67 inches wide 19 yards 68 inches wide; as illustrated, 4 yard of allover embroidery 18 inches wide, 1 yard of of insertion and 3 yard of edging.
